---

I am a Software Developer with experience in designing and developing responsive websites, ensuring optimal user experiences across various devices. Combining technical skills with creativity, I craft functional and visually engaging digital solutions. Passionate about pushing boundaries and finding innovative solutions to complex problems, I am not just a developer but a technical creative at heart.

I'm currently in my third year of study, pursuing a Bachelor of Information Technology at ECU. My academic journey has strengthened my foundation in software development, problem-solving, and emerging technologies, complementing my hands-on experience in the field.

I possess strong communication and interpersonal skills, allowing me to thrive in dynamic and challenging environments. Quick to learn and adapt to new systems, I am self-motivated, well-organized, and enthusiastic about taking on new challenges.

---

## EXPERIENCE

### SQL Soft, Perth – Internship (01/2024 – 12/2024)

Developed an internal website using React and conducted data analysis using Microsoft Power BI.

### Boom Radio (2024) – [boomradio.com.au](http://boomradio.com.au)

As part of a team, developed a website using WordPress for a student-ran radio station. I had also contributed to Figma prototypes and conducting user tests.

### Company Info (2024) – [company-info-psi.vercel.app](http://company-info-psi.vercel.app)

Website which shows info about any publicly traded U.S. company. It uses 2 API's and was created using React and Next.js.

### Portfolio Website (2024) – [tosik.net](http://tosik.net)

Personal website which showcases my projects, skills, and about me. It was created using React and Next.js.

### VEGAS Pro Tips (2023) – [vegasprotips.net](http://vegasprotips.net)

Website about showing tips and tricks in a beautiful way for a video editing software I have lots of experience with.

---
